

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING	
COLLEGE OF ENGINEERING TRIVANDRUM	
CSD416 PROJECT PHASE 2	
Project group	
GROUP NO:	Project Title
2	Decentralized Skilled Workers Platform
3	Data Migration Validation
4	Bus scheduling using Optimisation algorithms
5	Criminal record management system using blockchain
6	P2P Electricity trading
7	Property Technology-Tenant and client screening
8	TINYML Based Sign Language Interpreter for Medical Consultation
9	Enhancing Consumer decision making with AI powered reviews
10	QuikSpot: One stop solution to find nearby parking spaces
11	A Gamified Platform for children to increase their legal literacy

12	Lidar Data Processing and Analysis
13	AI Application development for AI SoC (Gesture application)
14	Agri-Food Supply Chain Transparency with Blockchain and IOT Technology
15	Court Ease
16	Employee Authenticity Verification System
17	Buiding a vector database for enhanced search and recommendation system in a college library
18	ISL Malayalam to text
19	Detection of malicious URLs using NLP techniques and ML
